Enclosures No. 2 plans & estimate

General No. 492
Muzarai F. No.

Chief Secretary's docket No. 6607 dated 30th September 1893, forwarding for opinion plans and Estimate for the construction of a new temple for the Kareballi Ranganathaswamy at Tandavapura

Has the honor to return the papers received with the above and to make the following observations:—

The site selected for

Mysore Govt. Central Press, Bangalore.—25-9-93-1,000.

the new temple appears to be suitable The design also good as ample provision has been made for ventilation. But instead of concrete flooring now provided, dressed slab stones would be preferable as they last much longer and are generally used in temples.

2. The Musafirkhana for travellers now proposed to be built with the Mangalore tiled-roof, ~~in lieu of the old mantapam is~~, ~~it is obscured~~, is, according to plan, attached to the Compound wall of the temple itself. It is better to have a quite detached building for the Musafirkhana and locate it at some distance from the temple. A number of rooms with a verandah in front and raised basement to prevent cattle from getting up would be more convenient than the open shed now proposed; and, also, a course of flat tiles in mortar may be laid below Mangalore tiles to make the rooms more comfortable in all seasons.

MYSORE DEWAN'S OFFICE,

PETITION DEPARTMENT.

OFFICIAL MEMORANDUM.

The accompanying Petition No. 670

dated 24th August 94 received at the

Dewan's Office from Chickka Ranzappa and others of Yanadalu and other villages of the Anleyare sub-taluk, Tumkur District praying that a new temple may be constructed for the Ranganathaswami of Havehalli, as the present temple is submerged under the water of Boranakanave

is forwarded, together with its one

enclosure, to the Amildaragi Superintendent.

By order,

Chief Secretary.

To
The Executive Engineer
Public Works Department
Division

Sir,

I have the honour to submit that I am a Contractor by profession and have been doing Contract Works in the Public Works Department for the last 24 years. In the year 1894 I was entrusted with the work of repairing the Bridge over the River Kaveri at Mettur. The work was to be completed within 6 months from the date of commencement. I started the work in time and completed it within the stipulated time. The work was done to the satisfaction of the Engineer in charge of the work and I received the full payment for the work done by me. The Bridge has been standing firm and strong for the last 5 years. Recently I have been informed that the Bridge is in a dangerous condition and that it is likely to collapse at any time. I am surprised to hear this news. I am sure that the Bridge is in a safe condition and that there is no reason to fear any danger. I am prepared to undertake the repairs to the Bridge, if any, and to complete the same within a month from the date of commencement. I am also prepared to execute the work at a reasonable rate. I request you to kindly entrust the work to me.

Yours faithfully,

ಪ್ರಿಯ ಅಧ್ಯಕ್ಷರಿಗೆ ಅಭಿನಂದನೆಗಳು
